COVER LETTER

To : Clarice D. Aiello, Quantum Bio DAO

Dear Clarice and the team,

I'm excited to apply for the Media Director position at Quantum Biology DAO. As someone deeply engaged with the blockchain space since 2020, I'm thrilled by your mission to advance quantum biology through community building, open governance, and innovative research. Having recently contributed to Quantum Biology DAO by designing motion graphics and video content for your live auction campaign, I'm eager to expand my role in communicating your groundbreaking initiatives to a broader audience.

With over six years of experience as a visual designer, motion designer, video editor, and graphic designer, I specialize in creating impactful animations, social media content, video ads, and explainer videos. My professional background includes working with global teams to produce high-quality visual assets that align with strategic objectives and resonate with diverse communities.

I am proficient in industry-standard software, including Adobe After Effects (and plugins like Duik Bassel, Limber, and RubberHose), Premiere Pro, DaVinci Resolve, Figma, and Adobe Illustrator. Additionally, I have expertise in Red Giant VFX Suite, Boris FX, Rive, and Blender, enabling me to deliver polished and compelling visuals. These skills allow me to craft multimedia content that effectively bridges the complex and fascinating intersection of quantum biology and blockchain technology.

Quantum Biology DAO's vision to revolutionize the understanding of biology at the quantum level resonates strongly with me. As Media Director, I would bring creativity, technical expertise, and a deep understanding of the crypto and blockchain landscape to amplify your message, engage the community, and support your innovative initiatives.

Please find my portfolio here: **https://bit.ly/saiful-arbi**. I would welcome the opportunity to discuss how my experience and skills align with the needs of Quantum Biology DAO.

Thank you for considering my application. I look forward to the possibility of contributing to your mission and furthering the field of quantum biology.

Warm regards,

Saiful Arbi

I'm a Multimedia Designer with over 6 years of experience in 2D animation, video editing, and graphic design.

EXPERIENCES

MOTION GRAPHIC DESIGNER

2024 - PRESENT

GROWMODO *(Leverkusen, Germany)*

Growmodo is a tech company offering a subscription-based design service, providing high-quality and affordable solutions for businesses and individuals seeking to improve their online presence. The company's remote team of designers is globally distributed.

As a Motion Graphic Designer at Growmodo, I create animated videos in multiple formats to help clients enhance their online presence. I collaborate with a remote team of designers to deliver high-quality design solutions. I utilize strong communication skills and creativity to meet clients' needs and exceed their expectations, staying current with the latest design trends and technologies to provide cutting-edge solutions.

HEAD OF CREATIVE

2023 - 2024

SUPERSKIN *(Semarang, Indonesia)*

SuperSkin is a company that specializes in skincare and beauty treatments. It operates through business units that include beauty clinics and skincare products. SuperSkin currently has 14 branches located in two major provinces in Indonesia.

As Head of Creative, I lead and manage the creative team, guiding them to achieve objectives. I develop and execute concepts and ideas aligned with the company's brand and marketing objectives, ensuring timely and budget-friendly delivery. I collaborate with stakeholders to understand business requirements, create inspiring creative briefs, and maintain brand consistency across all outputs. I provide regular feedback to the team, promoting continuous improvement and staying current with industry trends to enhance the creative process.

2D MOTION DESIGNER & VFX COMPOSITOR

2022-2023

ANYMATE STUDIO *(Bantul, Yogyakarta)*

Anymate Studio is a visual design and animation studio based in Yogyakarta, Indonesia with 6+ years of experience in producing digital projects, video production & animation videos. Being a trusted partner for many businesses worldwide.

As a 2D Motion Designer & VFX Compositor in my previous company, I was responsible for bringing 2D static images to life through motion design. I created attractive animations for a diverse array of media and worked with illustrators and directors to understand project scope and objectives. Additionally, I prepared conceptual layouts for motion graphic projects, encoded, converted and edited videos, and added effects/elements to enhance motion graphics.

During my time there, I supported the 3D design and illustration team with image editing and texture design. I integrated 2D and 3D elements of a shot while balancing the creative and technical side of each component. In addition, I performed offline and online editing, color corrected and graded, performed rotoscoping and chroma keying, and added visual effects, enhanced lighting effects and created convincing shadows within a shot.
